

Wonderful Water

By: Nicolette Lyscik

A colorful illustration of a landscape. In the background, there are several grey, pointed mountains. A blue waterfall flows down the right side of the mountains. In the foreground, there is a blue river with a sandy bottom. A green turtle is swimming in the water. A yellow fish is jumping out of the water. A green lily pad is floating on the water. A small green frog is on a lily pad in the bottom left. A green hill with a white daisy flower and a brown rabbit hole is on the left. A large, white, scribbled cloud is on the right. The sky is light blue with yellow sun rays in the top left. The text is written in a pink, scalloped frame in the center.

Water water everywhere
Water has lots of flair
Take a walk and you will see
Oceans, rivers, lakes, and streams
Wow! That's a waterfall
Its beauty awes us all
Not only beautiful can it be
It also provides clean energy
