

What does ACS Membership look like for you in the future?

A look at the package options with the 2022 Schedule of Membership.

CARLA

REGULAR MEMBER

6 years of service

Pays \$160

Her graduate internship lead to a bench job offer in biochemistry. She uses her SciFinder® activities and print edition of C&EN, on average she attends one ACS Meeting & Exposition per year, and is active in her Local Section.

FRANK

REGULAR MEMBER – EMERITUS

35+ years of service and is over 70 years old

Pays \$0 (Chooses to donate \$80/year)

Spent most of his career as a Senior Researcher at NIH and now teaches part-time at a local University. Reads C&EN regularly to stay informed, remains active in his Technical Division, and serves on a committee.

ERIN

REGULAR MEMBER – RETIRED

30+ years of service (paid membership)

Pays \$80

Recently retired from her position as an molecular modeler, Erin still remains engaged in the industry by reading C&EN, attends at least one ACS Meeting & Exposition per year, is a Councilor, and is active in her Local Section.

JAMES

REGULAR MEMBER – CONTRIBUTING

10 years of service

Pays \$80

As an entrepreneur and CEO of his own company, a full membership doesn't make sense for James. He likes his digital version of C&EN, regularly attends ACS Webinars, and likes to maintain his connection and years of service to the Society.

JULIE

REGULAR MEMBER – GRADUATE STUDENT

4 years of service

Pays \$55

As a second year Graduate Student, Julie really values her SciFinder® activities and ACS Publications benefits. She receives a digital edition of C&EN and hopes to attend an ACS Meeting & Exposition this year. She is an engaged member of her Graduate Student Organization (GSO) and the Younger Chemists Committee. She is using a Career Counselor to help her plan out her next steps after Grad School.

RICHARD

STUDENT MEMBER

2 years of service

Pays \$25

As a full-time student who enjoys his ACS Publications benefits, Richard regularly attends live ACS Webinars (and appreciates the archive). Richard is an active member of his university's Student Chapter. He used Get Experience to secure an internship as he headed into his Senior year and is currently applying to graduate programs.

MICHAEL

SOCIETY AFFILIATE

Not eligible to collect years of service, vote or serve.

Pays \$160

Michael is a lawyer who does not have a chemistry or related degree. He joined the ACS to get access to experts that will help him understand the science in the cases he defends. He is a member of the Division of Chemistry and the Law, enjoys the education and workshop discounts, reads the digital edition of C&EN to keep informed and attends some of the less technical ACS Webinars.

SARAH

COMMUNITY ASSOCIATE

Not eligible to collect years of service, vote or serve.

Pays \$0

Sarah frequently reads her digital C&EN newsletter and attends an ACS Webinar when she can. Used to be a regular member, but will not attend an ACS Meeting & Exposition this year (will not need the discount benefit). Plans to attend next year's fall meeting, so will likely upgrade before then. Sarah has maintained her membership in her Division and pays the non-member rate.
