

Common Questions

I was a member in 2021, what has changed for 2022?

All current members were automatically assigned to the Premium Package on January 1, 2022.

This package offers benefits identical to what members received at a new, lower price. Benefits remain unchanged and your experience and access are uninterrupted.

Can I change my package?

You may change your package during your renewal. If you take no action or decide not to renew, you will automatically be transitioned to Associate status with the Basic Package.

For more information and other common questions, go to acs.org/membership

Explore All ACS Has to Offer at **ACS.org**

The American Chemical Society is committed to remaining a relevant, engaging, and valuable association for its members and the broader chemistry enterprise. To ensure we are delivering on this promise, our benefits, packages, pricing, and membership offerings may change on a yearly basis.

about our new options.

INTRODUCING Your New ACS Membership

Chemistry is foundational to all that we do and all that impacts us in the world. From enthusiasts, to students, to professionals, and beyond, the American Chemical Society (ACS) has a package for you.

ACS
Chemistry for Life®

Select the Right Package For You

Premium Package

Enjoy the Full Range of Benefits from ACS

The Premium Package gives you full access to all ACS Member benefit offerings. This package provides even better value with reduced pricing for 2022.

Your Premium Package includes:

- Up to a 40% discount on ACS Meetings & Events registration fees
- Weekly delivery of *Chemical & Engineering News* (C&EN) in print or digital
- Weekly delivery of the ACS Matters newsletter
- Access to ACS Career Navigator™ resources
- Quarterly delivery of ACS Discovery Reports, published by C&EN and archive access
- Dues waived for your first year in up to three Technical Divisions and enrollment in your Local Section or International Chemical Chapter (Some restrictions apply)
- 50 free access tokens annually across over one million articles and book chapters
- 25 free yearly activities through CAS SciFinder®
- Access to the ACS Webinars® Library
- And more!

Standard Package

Stay Active in ACS and Save

The Standard Package is an option for Regular Members who want to be active in the Society but do not plan on attending events or need access to ACS Publications. It is half the cost of the Premium Package. As a part of this package, you will still be able to tap into many of ACS's most popular benefits.

NEW IN 2022

Your Standard Package includes:

- Weekly digital delivery of C&EN and access to the mobile app
- Weekly delivery of the ACS Matters newsletter
- Access to ACS Career Navigator™ resources
- Quarterly delivery of ACS Discovery Reports, published by C&EN and archive access
- Dues waived for your first year in up to three Technical Divisions and enrollment in your Local Section or International Chemical Chapter (some restrictions apply)
- ACS Member Insurance Program
- And more!

Basic Package

Connect with ACS by Joining the Community

Anyone with an interest in chemistry or the allied sciences is invited to join the ACS Community as an Associate. The Basic Package is a no-cost option and a great way to introduce yourself to ACS, the community, and stay connected to our diverse network of professionals.

NEW IN 2022

Your Basic Package includes:

- Weekly delivery of the C&EN Essential and ACS Matters newsletters
- Access to six digital C&EN articles per month
- Endless opportunities to engage with the global chemistry community on your terms
- Discounts on science products, shipping, office supplies, and travel
- And more!
