

LEARNING @ YOUR CONVENIENCE

## ENSURING A SAFER AND HEALTHIER WORLD

The University of Florida, College of Pharmacy announces **a new distance education program in Clinical Toxicology to meet the needs of today's professionals.** Join a growing number of health-science specialists who are advancing their careers through UF's prestigious online programs. The faculty involved in these programs have international reputations in the field of pharmacy, medicine, and clinical toxicology.

Each course is conducted online and is made up of specific topic modules. Most modules contain course notes supplemented with images, animations, and case studies. Students have 24/7 access to course modules, which are released over the duration of the UF semester, **enabling them to work at their own pace, on their own schedule.**

Assessment is continuous throughout the semester. Grades are based on successful completion of a written assignment at the end of each module. Some courses also include timed multiple choice quizzes and self tests. Students interact with teaching assistants, instructors, and each other, using private course e-mail, discussion boards, and live chat sessions.

Students can register for one or more courses each semester. All courses are conducted fully online. At the completion of all required courses, students will receive a certificate in Clinical Toxicology from the UF College of Pharmacy.
