

The Southern Nevada Section of the
American Chemical Society (SNS ACS)
is proud to announce:

The Annual Undergraduate & Graduate/Professional Student Poster Competition

**Join us on Friday, November 15, 2024
at the University of Nevada, Las Vegas (UNLV)
Advanced Engineering Building, Rm 150
1:30 PM Poster Setup
2:30-4:30 PM Poster Presentation & Judging**

The Southern Nevada Section of the ACS would like to recognize and award excellent student research in fields related to chemistry. There will be separate poster contests for undergraduate research and graduate/professional student research and the top two winners will receive a cash prize. The award amounts will be \$400 and \$200 for first and second place posters in each of the two categories (undergraduate, graduate/professional). The awards ceremony for top undergraduate and graduate/professional poster presentations will be held in conjunction with the Annual Awards Dinner on December 7th.

Registration is required via Google Form (<https://forms.gle/4xQMdVK4pVagWEru9>, [Link](#)) by **5 PM on November 8**. Registration materials include the following: a photo, brief professional biosketch (limited to 1 paragraph, maximum 150 words), title of poster, academic mentor, co-authors (if any) and abstract of research to be presented (maximum 250 words). If either of the poster categories fails to meet the five-student minimum, the contest for that category will not take place (with notification to those who signed up). *Poster presenters do NOT need to be ACS members to participate.*

Posters for this contest must reflect research related to the chemical sciences. Students from all science and engineering departments are encouraged to participate if the research has a strong connection to chemistry. There is no restriction on the date the poster was created. The poster size must be within 4ft x 6ft (otherwise no restriction on size).

If you have questions regarding registration or the poster competition, please contact Dr. Erica Marti at erica.marti@unlv.edu or (702) 895-2693.
